

PROFILE

Rony K Roy

Rony K Roy has a career path that began post his PG in bioscience. From 2008 to 2016, he held research project positions at IIT Madras, University of Calgary in Canada, Cancer Science Institute, National University Hospital, and National University of Singapore (NUS). In 2017, a shift to the startup domain was prompted by the prospects of significant translational opportunities after filing a PCT patent through NUS, leading him to leave behind a research position in Germany.

Throughout the past years, Rony has been deeply involved in Startup R&D, engaging actively with startup communities and undertaking travels for a comprehensive understanding of the startup ecosystem. Additionally, he had a brief stint (April-July 2023) in Russia with the startup TII, associated with the Technospark Incubator in Moscow.

Currently designated as Senior Technology Fellow, Kerala Startup Mission to work with Malabar Innovation Corridor.
